CRediT Author Statement

Yongzhe Li – Conceptualization, supervision, methodology, project administration, writing - review and editing. Zhuyu Zhang – Methodology, software, validation, formal analysis, investigation, visualization, writing - original draft.

Acknowledgements

The authors acknowledge the public Antarctic automatic weather station and blowing-snow measurement resources cited in this manuscript.

Funding

This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.

Declaration of Competing Interest

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

Declaration of Generative AI and AI-Assisted Technologies

During preparation of this manuscript the authors used OpenAI Codex and Hermes Agent for code inspection, consistency checks, and language-editing assistance. The authors reviewed and edited all generated material and take full responsibility for the content of the manuscript. No figure or other graphical asset in the manuscript was created or modified using a generative image tool.
